<i>*T6011 is taken for 1.5 points each term for two terms – Fall and Spring – for a total of 3.0 points.</i>		
<i>**T7103 may be taken in the Summer session prior to entering the residency year.</i>		

A minimum of 24 points, but no more than 33 points, may be earned prior to the residency year. Fewer points may be required prior to starting the field education year if transfer credits from another graduate program have been granted.

Residency Phase

During the residency year, students enroll in the method area practice courses, a field of practice course as determined by their field placement, a second-year research course, and any remaining electives. During this period, students attend school on a full-time basis during the day and complete 900 hours of field education, enrolling for 12 points over the year.

NOTE: Starting in Fall 2018, RRP students in qualifying agencies may be able to take T6020 for 6 credits in the Fall and Spring terms, with 14 of their 28 hours/week consisting of their current job duties. Students must follow the Field Education Department's guidelines for seeking approval for this option.

Alternatively, students may request the three-day per week field education model, and take T6020 Field Education for 4 points in the Fall, Spring and Summer terms. A four-day a week model is illustrated by method area below. See the *Field Education Manual* and Field Education section in the *Student Handbook* for more information.
